

An Open Letter to Human Resource Professionals:

Our contact with you concerns your responsibility of *relocating employees* and the special needs of both the employer and employee. Finding the right REALTOR® can simplify your job and give your employee and their family a quicker, more comfortable transition to Greater Cleveland.

As successful Realtors who have personally relocated three times for our corporate employer, we are well aware of the needs of all parties involved in the relocation. As you can see on our website, we provide needed information and details for employees and their families relocating to the Greater Cleveland area. A smooth transition to their new community is our goal.

Our ability to be good listeners and communicators will be beneficial to you. With the training received as a member of The Cleveland Society of Human Resource Managers, I am prepared to meet your needs in a timely fashion.
